Karen Salacki, Area Director

July 9, 2010

To all providers:

Thank you for your patience and understanding during our software conversion. The system is such that we are now able to open up access to the Carelink system. We are bringing up Carelink effective today and are continuing to work on other areas involved in the software conversion. Please use the web address below as the old one will not work. You must contact your contract specialist for reactivation of your password.

<https://carelink.carenetasp.com/beacon/>

We do not yet have all STR's and admissions entered into our new system so that information will not yet be available in Carelink. However, authorizations for existing clients (that have been faxed to you) are in the system and approved auths are ready for billing.

If you encounter any problems, please send an email with detailed information to your Contracts specialist for assistance.

Thank you for your patience during this transition.
